## **Exhibitions**

- **Group exhibition, 2022, Location3, Artefact, Birmingham.**
- **Group exhibition, 2022, Night School, The School Of Art, Birmingham.**

## **Education**

- **2020-2023,  
Degree  
Birmingham University**

Throughout my three years within my degree, I found who I was as an artist developing skills further with self-directed workshops supported by professional technicians, meeting deadlines for monthly shows alongside projects, working along professional briefs gaining knowledge and confidence working with and for companies as well as amazing experiences within the art and design community that helped shaped my art into what it is now and build lifetime connections with likeminded positive creative people.

- **2018-2020,  
Extended Diploma  
Walsall College**

My second and third year was spent expanding knowledge and skills on everything included but not limited to the year before with new experiences managing and selling handmade work to the public and creating a show with peers in a local shopping centre. Through these two years I discovered a love for printmaking, drawing and painting which I knew I wanted to develop further during my education and own creative time.

- **2017-2018,  
Diploma  
Walsall College**

For this first year working with technicians, I gained experience and knowledge in woodwork, fashion, 3D designs including and not limiting to sculpture in found objects and clay work, textiles, fine art, graphic design, photography and visual studies. Due to this I started to build on my strengths within the different areas and medians to broaden my creative knowledge as well as work on my weaker practices to have an equal skill set within art and design.
